Key Insights

- There are positive indicators for all goals and targets in 2017.
- The 60x30 goal and the completion goal showed strong improvement--at rates needed to reach 2030 goals.
- Completions for male and economically disadvantaged students grew modestly but are falling behind needed progress.
- Direct enrollment from high school increased slightly after a two-year decline and requires additional attention.
- Marketable skills and student debt goals remain steady, although excess semester credit hour reductions need to pick up the pace.
